

# Case Study

**Client** Private Client  
**Location** Hall Farm Barns, Langley  
**Project** Listed Barn Conversions

Hall Farm Barns is a collection of Grade II Listed barns which have been converted into two separate family homes. **EHW** were commissioned by a private developer on the basis of their wealth of experience related to Listed barn conversions.

The barns were in extremely poor condition needing a more than sensitive approach to their conversion. The end result is one of stunning open cathedral like spaces with original features retained and the external appearance of rural agricultural buildings.

The developer is so delighted, he will be occupying one as his family home.
